

EMERALD KEEPERS

For an Emerald Green, Ocean Blue Coronado

THANK YOU

As we reflect on 2022, Emerald Keepers is grateful for our growing team of committed community Emerald Keepers, volunteers, and partners who have helped advance our goal of making Coronado a model city for sustainability. We appreciate everyone who picked up trash, made more environmentally conscientious choices and invested in solar. Thank you to those who wrote to our city council members to advocate for a strong Climate Action Plan, for joining a Community Choice Aggregation for clean energy, installing solar on city buildings and adding EV charging stations throughout town.

We also want to acknowledge those who attended our first Coronado Community Convening and read our final report (available on our website) and everyone who participated in our educational events, took our VoiceMap walking and bicycling tours and championed our CHS and CMS Emerald Keepers Clubs.

This year we activated two more marine skimmers. Thank you, Coronado Cays Yacht Club for your enthusiasm for installing Tiger and Pink Floyd to help suck in marine debris and clarify the water. The Coronado Yacht Club is continuing to care for the skimmer named Boris, which we donated in 2020.

Congratulations to all 2022 Emerald Keepers of the Month and our Emerald Green, Ocean Blue restaurants and businesses. We extend our sincerest appreciation to our many community partners who worked closely with us over the past year. We want to extend a special thank you to Dean Eckenroth Jr. who has helped us get the word out by generously donating space in the Eagle & Journal every week.

And a very warm thank to the donors below who gave generously to further Emerald Keepers' message and mission. You make our work possible. Here's to an Emerald Green, Ocean Blue 2023.
