

EMERALD KEEPERS

For an Emerald Green, Ocean Blue Coronado

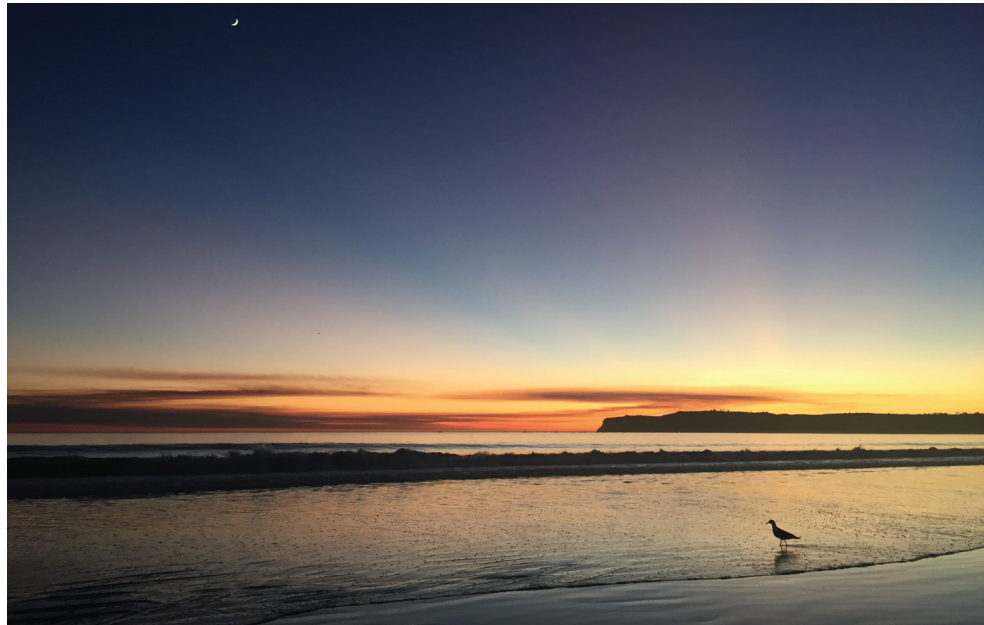

PROJECT GRATITUDE 2022

Emerald Keepers continues to educate the community on a variety of important sustainability topics. We want to preserve our slice of paradise for future generations. With the help of some of our local photographers,

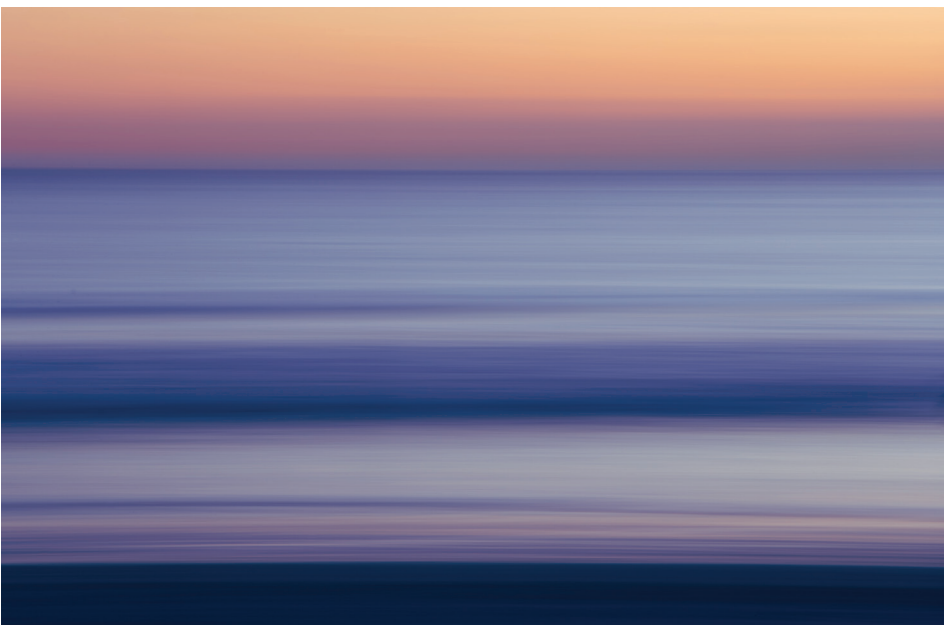

we pause and give thanks and gratitude for our Emerald City. We are truly blessed to live, work, play and raise our families here. Thank you to those who keep Coronado Emerald Green, Ocean Blue.

- Kel Casey

- Anna Woerman

- Derek Emge

- Joel Ortiz

I am grateful for the Coronado community, from bay to ocean, and everything in between. It's a little town that does big things. A town that gives back. A town that always finds a way to come together. - Kel Casey

Not an evening goes by without a personalized light show along our coast. These are the moments when the sounds and pressures of the day slide off one's back, leaving just the simple and rejuvenating connection with nature -Derek Emge
